# PROBES

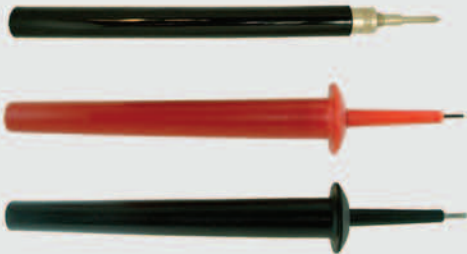

E-Z-Hook probes meet industry demands and companies' versatile testing requirements.

## Product Line Includes:

- Oscilloscope probes
- Pin and needle tip probes
- Long handled probes
- Variable spacing probes

Variable spacing probe

Standard pin and needle tip probes

Long-handled test probe

# ALLIGATOR CLIPS & ADAPTERS

Our wide variety of alligator clips provide solid, positive contact.

## Product Line Includes:

- Uninsulated & insulated styles
- Mini, standard and large
- Insulation-piercing
- Alligator test adapters

Large alligator clip

Mini uninsulated alligator clip

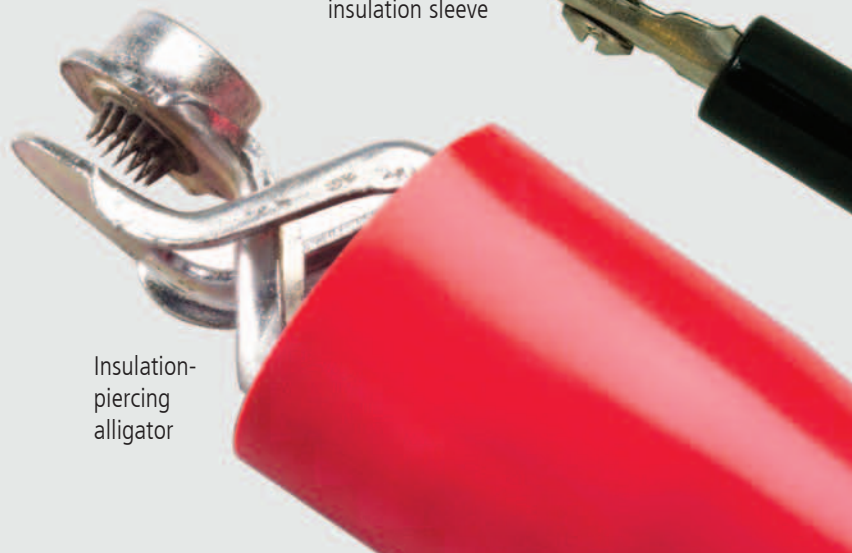

Standard uninsulated alligator clip

Flexible vinyl alligator insulators

Standard alligator with insulation sleeve

Insulation-piercing alligator

## CONNECTORS & ADAPTERS

Made from high quality materials and available in an array of colors, E-Z-Hook connectors and adapters are requested by engineers when positive connections are essential.

### Product Line Includes:

- Banana plugs
- Pin plugs
- Sockets
- Spade lugs
- Panel mounts

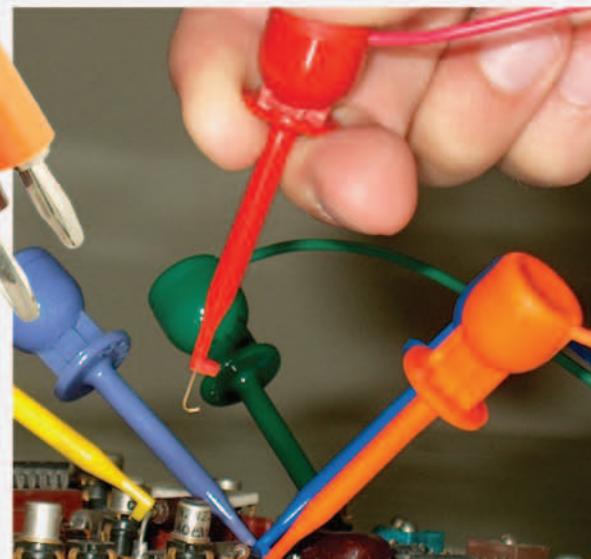

## PATCH CORDS & LEADS

E-Z-Hook offers a broad selection of standard test leads and patch cords. By combining flexible test lead wire with our extensive line of test components, the result is a comprehensive assortment of dependable leads and patch cords to fit your requirements.

Color-coding helps prevent confusion when testing.

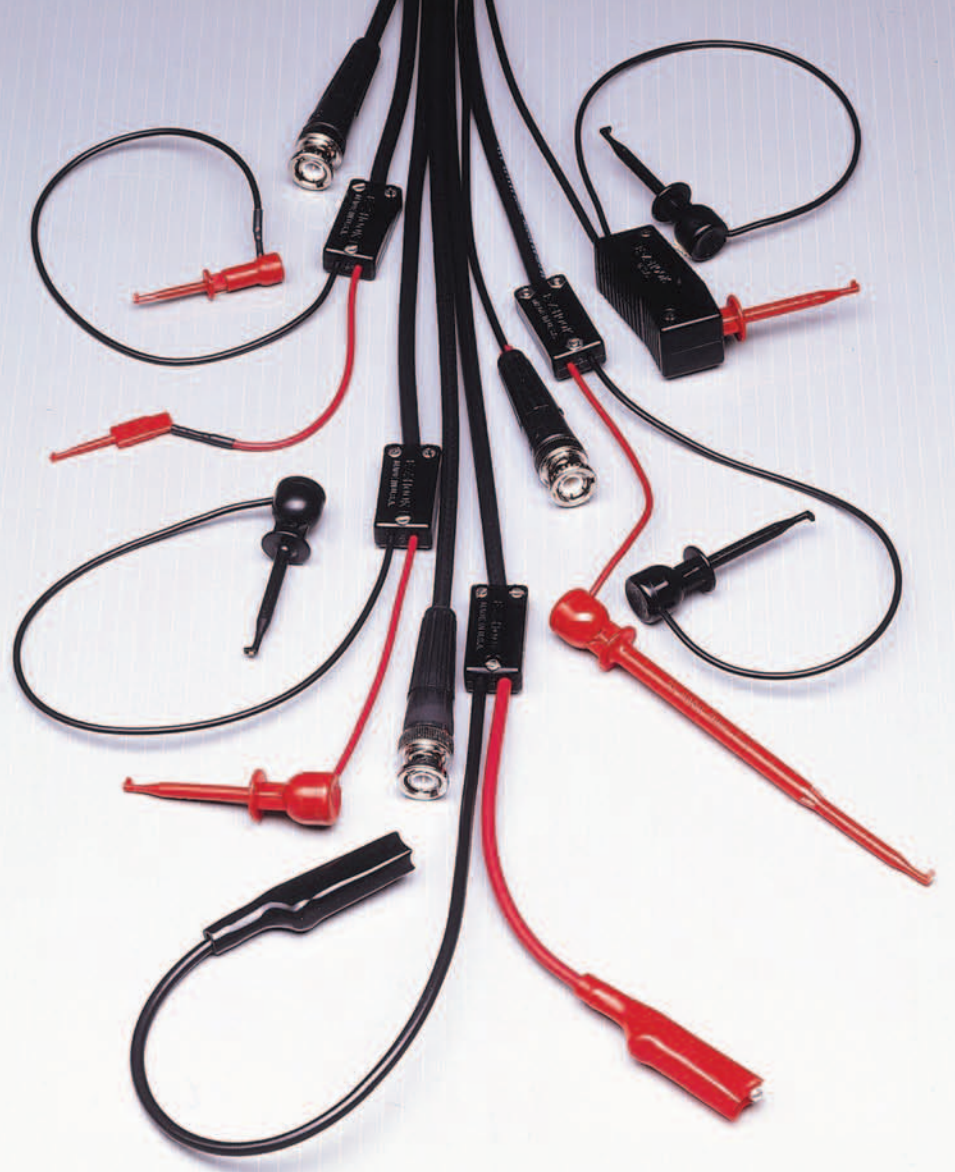

# COAXIAL CABLE ASSEMBLIES

---

Specializing in coaxial cable assemblies that utilize our extensive line of connectors, E-Z-Hook provides the industry with a variety of standard and custom cable assembly options.

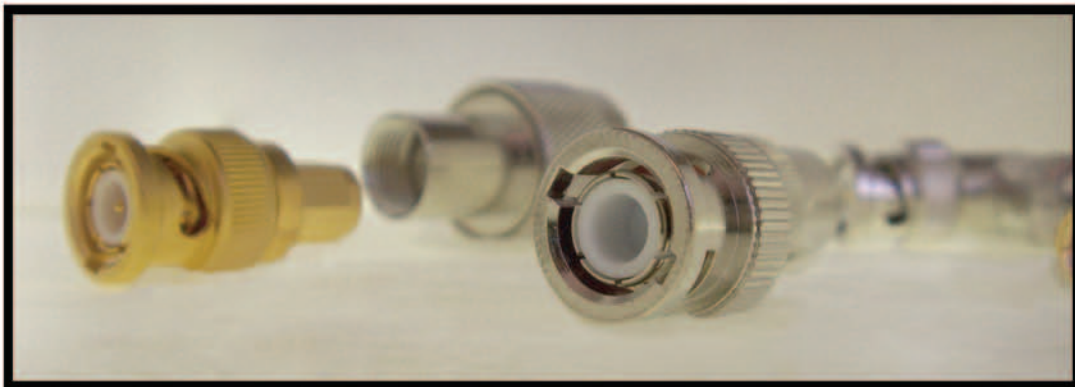

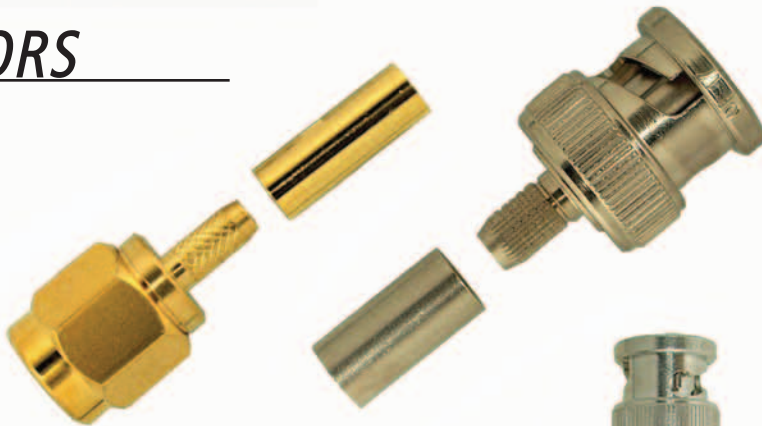

## COAXIAL CONNECTORS

---

### Product Line Includes:

- BNC
- SMA
- UHF
- TNC
- LOC
- N Series
- Phone, video and audio

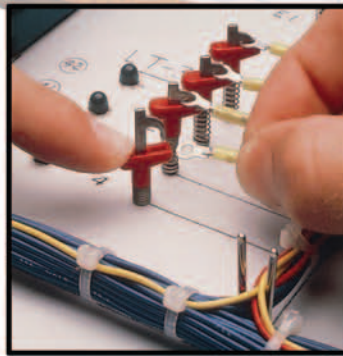

# HARNESS BOARD

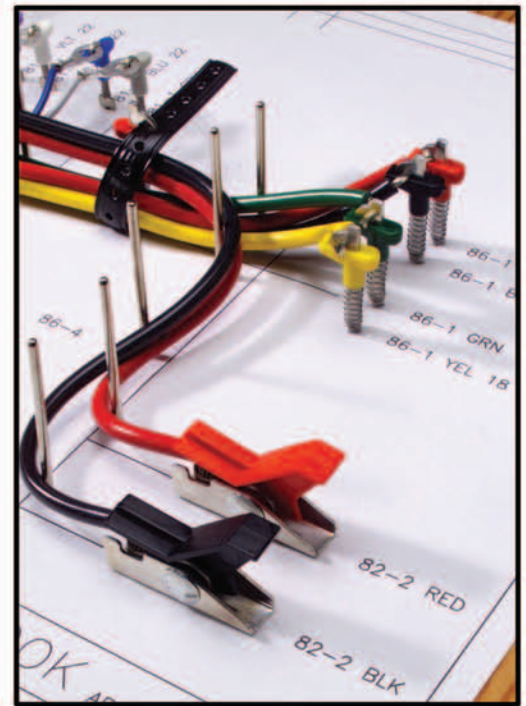

E-Z-Nailclip™ test terminals and harness board nails are ideal for holding wire in place for quick, sure anchoring or connection. The simple fingertip operation and ease of soldering eliminates set up hassles and allows for more efficient harness board construction.

Color-coded nail clips

Model number 86-1

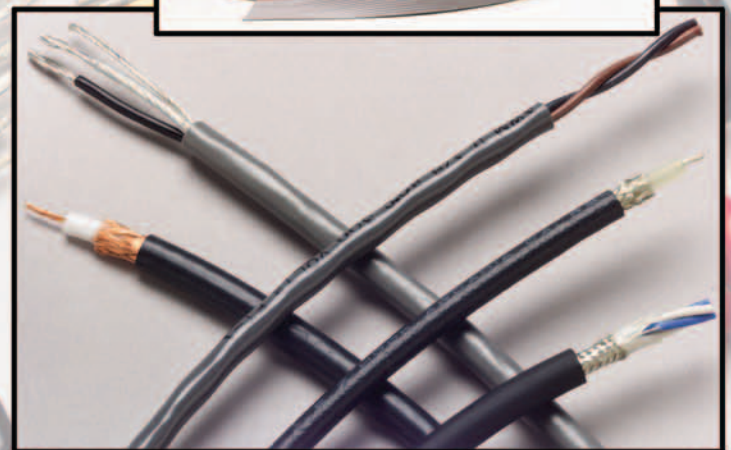

# WIRE AND CABLE

E-Z-Hook leads the industry with superior flexible test lead wire, coaxial cable and ribbon cable, provided in an array of gauges, insulations and colors. Wire and cable are available in 100, 500, and 1000 foot spools.

## Product Line Includes:

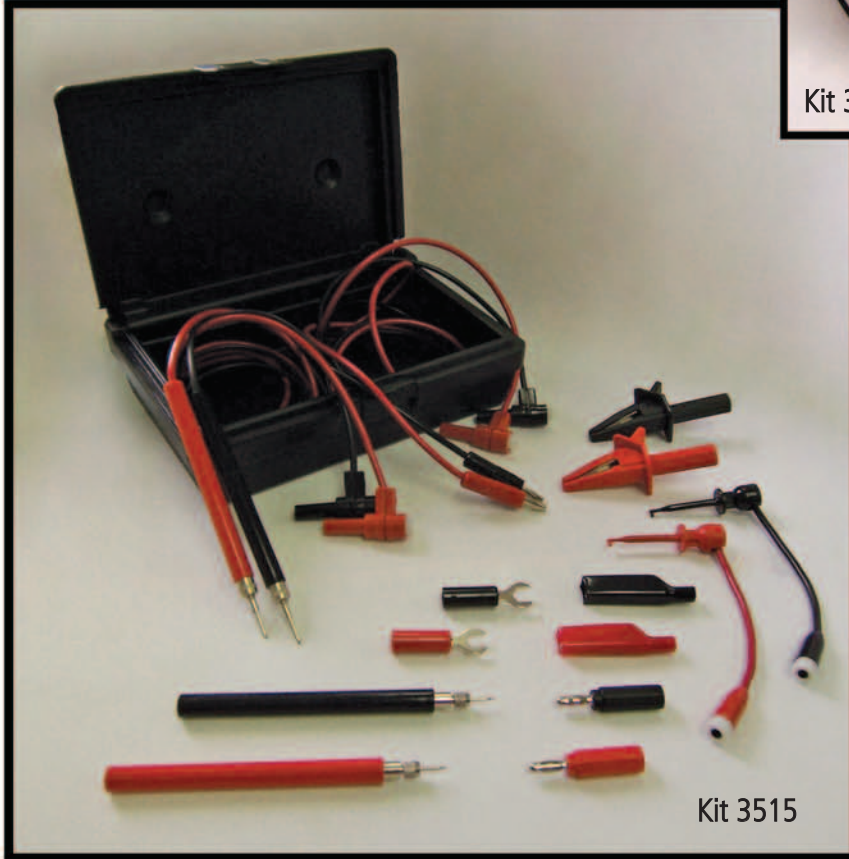

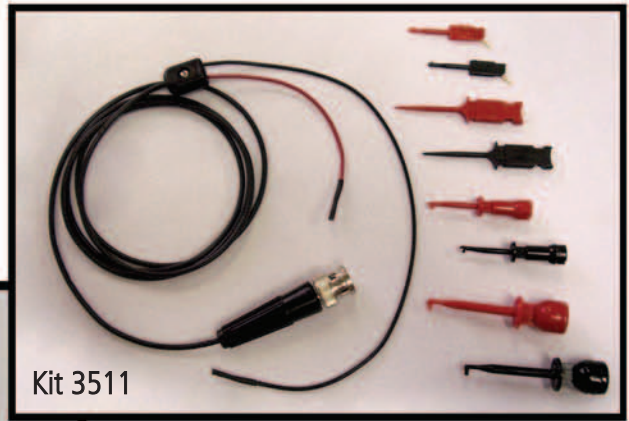

- Superior flexible test lead wire
- Coaxial cable
- Ribbon cable

# KITS

E-Z-Hook offers a wide variety of standard products in sets and kits designed for ease of use in test environments.

### Custom Kits:

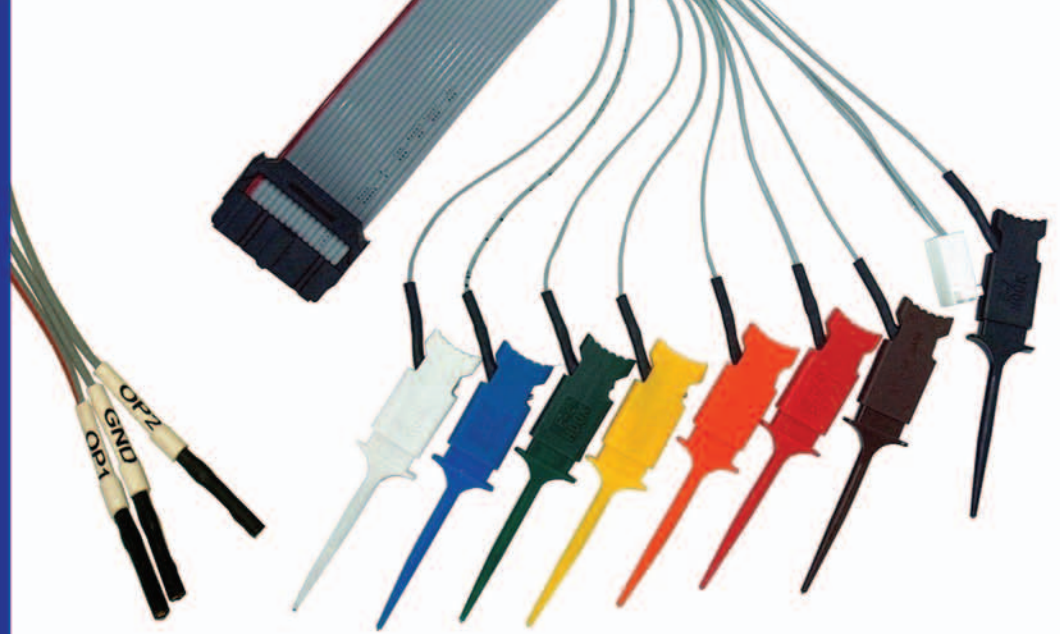

E-Z-Hook accomodates specific needs by offering a custom kit option. You choose the components and we put it together!

# ACCESSORIES

E-Z-Hook offers accessories as well as individual components for clients interested in making their own parts.

## *At E-Z-Hook Custom is Standard*

E-Z-Hook specializes in custom solutions for testing problems. In addition to standard parts, E-Z-Hook designs, develops and assembles a large variety of specialized parts. We design and build to your specifications and application requirements.

### Custom Capabilities Include:

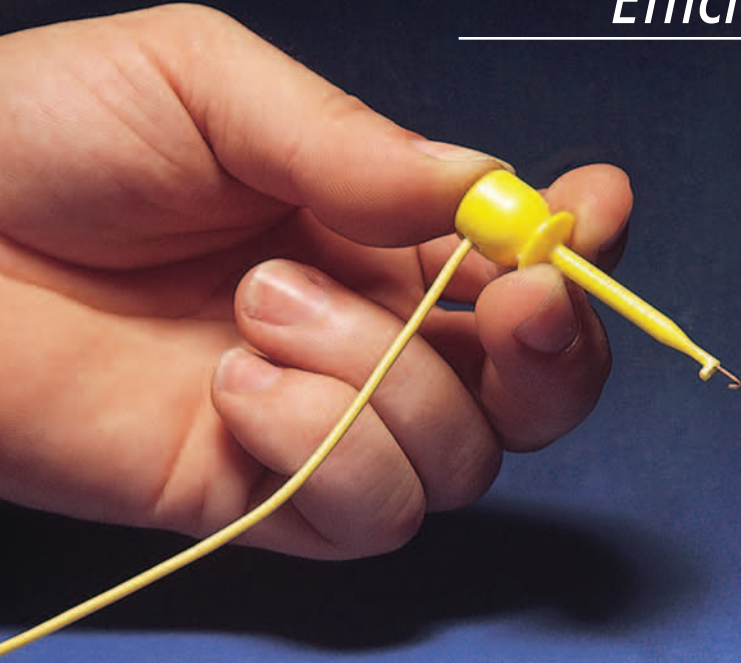

- Custom design & manufacturing
- Custom assembly
- Non-standard lead & cable lengths
- Custom hook bends
- Custom molding
- Custom labeling
- Custom kits

Please contact E-Z-Hook directly for custom requests.

# Efficient Across Many Industries

E-Z-Hook products have become known for their flexibility in various situations. Whether it is something as intricate as making that perfect connection to something as fun as jewelry making, E-Z-Hook has the solution.

E-Z-Hook products are popular in different industries for specialized solutions to many kinds of problems. We provide high temperature units for use in the dental and medical industries, kits for telecommunications companies, and electrical motor leads have been assembled for special customers.

E-Z-Hook parts are even used in tying flies for fly-fishing!

## Key Industry Sectors Include:

- Aerospace
- Automotive
- Biotech
- Dental
- Electrical
- Electronics
- Energy
- Government
- Industrial
- Medical
- Robotics
- Telecommunications

Continued focus on product development, rapid delivery and custom requirements ensure that E-Z-Hook is prepared to meet the changing needs of customers and the constantly evolving marketplace. We have the solution for your specialized needs.
